Release Date : 14 October 2008

SOKKIA GSRx700 Series Config Tool for Allegro CX V8.3.1

SOKKIA is pleased to announce that an update is available for the **GSRx700 Series Config Tool (V8.3.1)**, formerly known as GSR2700 IS/ISX Config Tool, for use with the Allegro CX™ data collection platform. The new version includes enhancements for the GSR2700 IS and GSR2700 ISX.

GSRx700 Series Config Tool V8.3.1 Features:

- Added auto MRS functionality. (In order for auto MRS to work, the correct GSM Java Applet will be needed)
- GDL700i (Siemens) module must use Java Applet v3.003
- Nokia module must use Java Applet v3.002
- Added GSM network status.
